WHAT HAVE WE DONE BEFORE?

USING GOOD PRACTICES FOR EVIDENCE BASED ADVOCACY

In 2015, Making It Work documented 11 practices selected on their potential to raise awareness, inform international level advocacy, and build the capacities of women and girls with disabilities and their organizations from across the world. These good practices have since been used for various advocacy actions. The MIW good practices contributed in 2015 to shape the debate on gender-based violence at the Commission on the Status of Women, the Conference of State Parties to the CRPD and the 62nd session of the CEDAW (Committee on the Elimination of all forms of Discrimination Against Women). Further contributions were made to the report of the Secretary-General on the status of women and girls with disabilities (2017), the CEDAW Committee (68th session, Aug. 2017), etc. The 11 good practices can be downloaded on our website: www.makingitwork-crpd.org.
